Darshan UNIVERSITY

Expense Manager

Project Description

The Expense Manager System is designed to help companies record, manage, and analyse all employee-related business expenses and reimbursements in a systematic and transparent way. It provides employees with an easy way to enter expenses and helps HR manage monthly transfers efficiently, while also offering useful income–expense insights and reports.

Screens List

1. **Authentication & Dashboard**
    1. **Login Page:** Role-based authentication (Admin / Normal User)
    2. **Dashboard:**
        - Summary of Normal User Related Expenses, Incomes.
        - Summary of All Users Related Expenses, Incomes for Admin.
3. **Project & People/User Management**
4. **Expense/Income Category/Subcategory Management**
5. **Expense/Income Management**
    - Date: The actual date of the expense/income.
    - Category: Type of expense/income (e.g., Travel, Food, Stay, Purchase, etc.).
    - Subcategory: A more specific classification (e.g., under Travel – Taxi, Train, Bus, etc.).
    - Project: The project or department the expense/income belongs to.
    - Amount: The total money spent.
    - Attachment (Bill/Receipt): The user uploads a copy or photo of the bill.
    - Remarks: Optional notes related to the expense/income
6. **Reports & Analytics**
    - Total Income and Total Expense
    - Month-wise or Year-wise Statistics
    - Category-wise Expense Distribution (e.g., charts or graphs)
    - Project-wise Income Expense Summary
    - Export to Excel / PDF
